After asking the questions on the form, and while the caller is still on the line, **depress the hook-switch or flash button momentarily then dial 11#**. This action allows the telephone switch to identify the calling number. Then from a different telephone, call 911 and report the bomb threat. Be sure to give the 911 dispatcher your name, unit, and telephone number. If danger to life or property is possible, alert personnel and evacuate the building.

MALICIOUS / NUISANCE CALLS

Such users are personnel of essential elements of command and administration whose authorized usage of long distance telephone communications is required in support of command operations, intelligence, logistics, and administration.

Personal and unofficial calls are prohibited. Unofficial calls to and from government telephones are not permitted. Use of government telephones for such calls to avoid payment of tolls is a UCMJ offense. All such calls are traced back to the calling party and appropriate action taken against the offender.

MINIMIZE

1. Minimize is a condition imposed by commanders to control and reduce electronic communications, both data and voice traffic, during exercises or periods of emergency. During such periods, vital and relevant message traffic must be drastically reduced.
2. Minimize may be imposed Department of Defense wide, Air Force-wide, MAJCOM wide, or for given countries, states, or areas as conditions warrant.
3. Minimize may be imposed on DSN, local telephone, or data systems. Telephone systems include such services as long distance calls, administrative tie-line calls, etc. One or all systems or services may be minimized as required.
